YOUR PARTNER IN ELECTRICAL AND LOW VOLTAGE EXCELLENCE

CREATE OPTIMAL ENVIRONMENTS WITH SOUND MASKING

At Shea Electric & Communications, we understand that maintaining a productive and comfortable environment is important for employee and customer satisfaction. Our partnership with Biamp enables us to offer state-of-the-art sound masking systems to enhance privacy and reduce distractions in various settings, including corporate offices, healthcare facilities, and educational institutions.

WHAT IS SOUND MASKING?

Sound masking involves adding a subtle background sound to an environment, making conversations less audible and minimizing distractions. This enhances privacy and creates a more comfortable and productive workspace.

BENEFITS OF BIAMP SOUND MASKING SOLUTIONS:

Increased Privacy:

- Protect confidential conversations in open areas, meeting rooms, and patient consultation rooms.
- Ensure compliance with privacy regulations such as HIPAA in healthcare settings.

Enhanced Productivity:

- Minimize distractions, enabling employees, healthcare staff, and students to focus better.
- Create a more efficient and productive work or learning environment.

Comfortable Environment:

- Balance acoustic levels to create a more pleasant atmosphere.
- Reduce the impact of disruptive noises, improving overall comfort.

Customizable Solutions:

- Tailored to fit the unique needs of your facility.
- Seamless integration with existing infrastructure and systems.
