

YOUR PARTNER IN ELECTRICAL AND LOW VOLTAGE EXCELLENCE

Honeywell®

SERVICES

If an intruder targeted your business, would your current security plan measure up? These days, relying on basic locks won't cut it. Partner with Shea Electric & Communications, LLC, and put safety first. We'll help you protect your staff, facilities and valuables with a custom intrusion detection system designed to benefit your business!

INTRUSION DETECTION

SOLUTIONS OVERVIEW

Our intrusion detection solutions help you prepare for the unexpected – they're tailor-made to fit your business and deter would-be burglars. A user-friendly central alarm panel allows easy control of all system features and Shea Electric can provide extra security by pairing you with around-the-clock monitoring from a UL-certified center.

PRODUCT LINE

Stop intruders in their tracks with the most advanced security features ranging from motion detectors to door and window sensors. Shea Electric can also install panic alarms to immediately alert authorities in the event of a real-time security threat.

PERKS OF PARTNERSHIP

It's a win-win with Shea Electric as your source for intrusion detection: you can be confident that you have a high-performance, state-of-the-art security system backed by the most professional installation. This combo provides some real peace of mind in keeping your workplace safe.
